Together we will
save the World

We will bring attention of cryto communities to Global Warming together. With this purpose we created community driven, fair launched Token called #SGW. SGW is programmed to reward holders while increasing in both liquidity and value.

STOP Global Warming

Our planet is warming while the human population is growing

Climate change, land degradation, and overexploitation are causing temperatures to rise, land to dry up and fertile soils to erode. This causes serious problems such as extreme droughts and famine. Luckily, there is a solution!
If we bring back nature on a large enough scale we can positively impact climate change.
Now is the time to dig in and scale up. The race is on.

BIODIVERSITY LOSS

FACTORY FARMING ENDANGERS THE NATURAL WORLD, THREATENING THE SURVIVAL OF MANY ANIMALS AND PLANTS.

POLLUTION

FACTORY FARMING POLLUTES ENVIRONMENTS, CONTAMINATING THE NATURAL WORLD WITH A RANGE OF POTENTIALLY LETHAL TOXINS.

RESOURCE WASTE

FACTORY FARMING WASTES RESOURCES, REQUIRING VAST INPUTS BUT GIVING RELATIVELY LITTLE FOOD ENERGY IN RETURN.

We are #SGW Community

We believe in the power of nature and in cooling down the planet together by regreening degraded land and bringing back vegetation. STOPGLOBALWARMING is a Global Initiative dedicated to developing programs aiming to combat Global Warming and Climate Change and is involved to develop realistic Carbon Sequestration Harvests to achieve reduced levels of Global Warming, employing a myriad of activities including Afforestation, Reforestation, and Enhanced Marine Climate Management, and utilizing enhanced public interest and innovative financing mechanisms.

Vision

Our vision is to combat global warming and climate change by means of planting trees as a means for carbon sequestration.

The Vision of STOPGLOBALWARMING is to inculcate simple, affordable, and effective mechanisms to reduce Carbon Sequestration and institute effective Emissions Control Systems so that Global Warming and Climate Change can be kept at manageable levels, to be enabled by empowered climate conservation processs. Supporting activities to avert Global Warming and Expand Efforts in Carbon Sequestration.

We are in the midst of establishing meaningful partnerships with climate change activist groups.

STOP Global Warming

37% OF THE CLIMATE PROBLEM CAN BE SOLVED BY APPLYING NATURE-BASED SOLUTIONS

With this purpose we created #SGW Community and charity token to bring attention from cryupto community to real world issues. We will combine blockchain,defi and nft technology to make Charity events with crypto community.

While investors and community are making profits with #sgw token , they are also helping to charity funds and organisations for helping their purpose.
